

Adjudication Improv!

Rules:

- Audience puts adjudication problems in the chat
- We will take them and talk about how we would adjudicate them – right now
- Just like we were running a real game
- We won't use tables, charts, or computers
- We will explain ourselves!
- You can't:
 - Ask historical questions, only modern/near future scenarios
 - Ask specific technical questions: "what is the range of the AIM-260 JATM"?
